Alexandra,

I am going to break the pattern and start using first names and respectfully request you do the same. I greatly appreciate your respect for the service, but your position is of equal value, if not more, to the region...and I'm sure your equivalent grade is at least that of a Brigadier General. I've attached the requested letter...it is a public document with no restrictions for dissemination. As I understand DERP, SECDEF carries out the program in consultation with the Administrator of the EPA.

I would be more than happy to discuss the impacts of the National Guard's ability to fund CERCLA activities.

V/r  
Chris

General Faux,

It was an honor to meet you and to speak with you. Thank you for your service to America. I was very impressed with what I learned.

You mentioned a memo from Assistant Secretary of Defense for Energy, Installations, and Environment Niemeyer that could be helpful to my understanding of responses to PFAS cleanups. If that is something you can share I would appreciate a copy.

I look forward to meeting one of your staff at the PFAS workshop for New England next week. More details here: Caution-<https://www.epa.gov/pfas/pfas-community-engagement-exeter-nh> < Caution-<https://www.epa.gov/pfas/pfas-community-engagement-exeter-nh> >

Sincerely yours,

ED\_002300\_00000520-00001

Ms. Dunn,

It was a pleasure to meet you yesterday. Please feel free to contact me directly if you have any questions or desire for additional tours on JBCC. I may not have all the answers, but will hunt them down. I'm sure the PFAS issue will have us crossing paths again in the near future!
